1. The following is an examiner's statement of reasons for allowance: Rejection of claims 1-11 and 22-26 under 35 USC 112 first paragraph is hereby withdrawn subsequent to applicants' amendments and arguments. The closest prior arts are Hanna(US 6,063,138) and Smith(US 4,582,731). Hanna is teaching aerosol solvent extraction system(ASES), whereas, Smith is teaching rapid expansion of supercritical solutions(RESS). Instant claimed process is drawn to improved gas-antisolvent process(GAS). As described in detail, on pages 12-14 of applicants' response, the distinction is very clear between the reference processes and instant claimed process. Applicants have cited other prior art references for GAS process and instant claims are novel over those references also, because those references fail to recite all the steps claimed herein(steps (a) to (f)).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
